Responsibility meaning –

- **the state or fact of having a duty to deal with something or of having control over someone**

of responsibility to better our lives and futures.

I want you to understand readers that homelessness can come to anyone in life, but how we overcome it can make the difference in life, so it is important that we learn to take responsibility for our lives and how we live them.

If I were going to get out of homelessness and a mental health crisis, I need to make a choice and decision. This will not be how my life ends I will find a way to get through

this no matter how painful, hurtful,
challenging it becomes.

Chapter 3 - Christopher Liam Rose Life Story of Homelessness & Mental Health Crisis

In this chapter I am going to talk about my life story of Homelessness and Mental Health Crisis that I experience in 2014 – 2015. This is my real story and I want to inspire the readers that you can experience the most destructive life experiences and find a way to overcome Homelessness and Mental Health Crisis.

This is my Testimony and I want you to understand readers that anything is possible if you focus on moving forward and creating your future.

**Christopher Liam Rose Life Story of
Homelessness & Mental Health Crisis
(Testimony)**

I have always had a passion for music and I was a musician before I started to help other people and give back. As a Musician I had my own music business called “Starz Gang Rockstarz” (SGR) which was my music media entertainment business. I was a musician creating music for fans, followers, family on YouTube Channel called Reckyz Rose which is my music artist name at this time. Music was something I found to be a source of inspiration because I started to write music due to break up from my ex-partners who left me because of my behaviour and mental health difficulties. I am not saying I was perfect in the break up but it did destroy me and made me feel vulnerable. Music was my first passion that I felt like I can be authentically myself and

share my music gifts and talents to the world.

After the break up from my ex-partner I started to create music from 2010 – 2014 as a musician under my own independent music record label (SGR).

As I was living my life and trying to find who I was as a human being I met a New Partner named Bumtzz (Nickname) who I started to date and build a relationship with.

My life in 2010 – 2014 was going really well and I was in a relationship and falling in love with Bumtzz and I was doing my music as an Entrepreneur and Musician create Hip Hop, Rap, RnB Albums for YouTube Channel of fans, followers, family.

My Music was getting better and better and as Musician I was really build an amazing following of fans which was everything to me at the time.

My life was so amazing and I thought that everything was going ok.

During my relationship with Bumtzz we started to have argument and disagreement which was affect the relationship. I was spending too much time doing music and recording in the Music Studio and not making time for Bumtzz in the relationship.

Due to all the argument and disagreement, we were having in the relationship Bumtzz said to me that she wants to leave me and break up with me due to not support her and showing her the love she desires.

I was heartbroken by the break up with Bumtzz and because I have mental health conditions of schizophrenia, psychosis, depression the break up really destroy me.

This was in June 2014 which Bumtzz left me and break up with me. At this point in my life Bumtzz was everything to me and I didn't want to break up with Bumtzz but Bumtzz felt that she needs to move on without me in her life.

This beginning to affect me emotional and mentally because I felt like I destroy the relationship due to my actions and mistakes. Because I was around 23 – 24 when Bumtzz break up with me I was still trying to find myself as a human being and find my life path.

This was the second major break up I had with someone I truly loved and care about and maybe because of music I was unable to provide the love & care Bumtzz need from me.

This cause me to go into a deep depression feeling unhappy, miserable and vulnerable. I didn't have the love of my life Bumtzz to be with me and now I was single again after have 3-year relationship with Bumtzz.

As I was reflecting on my relationship with Bumtzz I started to blame myself for the breakup of the relationship and these negative feelings and emotions started to come to me.

I needed some help and guidance to help me deal with the break up from Bumtzz.

One day in my flat I was on YouTube searching for self-help & spiritual videos to help me process break up and depression. I found a video series by **Jiiddu Krishnamurti and Dr Alan - A wholly different way of living.**

This video series by Jiddu Krishnamurti and Dr Alan was talking about Faith – Spirituality – Religion and life and we need to learn how to Overcome ourselves and live wholly differently. This was the first ever video series I watched fully on YouTube and the more I watched it – the more I was learning and I realise that life is deep and more spiritual than we can ever begin to imagine.

Jiddu Krishnamurti and Dr Alan was talking about a wholly different way of living and

transforming our psyche and psychological mind.

Because I was in deep depression and vulnerability, I realise that this video series will change my life for the better.

In the 18 Videos by Jiddu Krishnamurti and Dr Alan it was taking me on a journey from The Self to No Self and finding Freedom and Liberation from Suffering – Pain – Adversities.

I was in deep Suffering – Pain – Adversities during the break up from Bumtzz and the 18 videos series was helping me to transform.

In 15 – 18 Videos it was talking about Religion – Faith – Spirituality – Meditations. At first, I didn't understand how deep Faith – Spirituality – Religion is

within humanity but as I was watching the videos series, I realise I need to make a change within myself and learn from my mistakes.

Jiddu Krishnamurti talk about Meditation helping you to find God – Faith – Spirituality – Religion and how Meditation affect all areas of your life.

At this time in my life, I need Spiritual Guidance, Faith, Spirituality, Religion and find my relationship with God.

So, I started to do Meditations at home and in Battersea Park trying to find myself and discover my humanity.

The more I meditate and stay in silent and stillness the more I was Spiritually Awakening from The Self to No Self. The

Suffering – Pain – Adversities I was going through was starting to fade away and I become more Spiritual and Faithful.

By doing Meditation I was connecting to my Spirit, Mind, Soul and finding the true Nature of myself as human being.

Meditation opened up my mind to Faith – Spirituality – Religion.

Within my childhood and upbringing, I have gone through lots of Spiritual Life Experiences and by Meditation my Mind was finding the Spiritual Truth in life and reality.

This was so powerful that my Mind, Body, Soul, Psyche started to Spiritually Change and I was finding the Spiritual Truth of my Life.

Jiddu Krishnamurti and Dr Alan

Conversations transformed my life and I started to become very interested in Faith – Spirituality – Religion – Nature – God.

With the Spiritual Knowledge and Wisdom, I was gaining from Meditations I started to see visions into the future from a Faith Perspective.

Spiritually and faithfully, something started to change in my Psyche and Psychological Mind and I could see the future and where my life was going to be.

I realise through Meditation that God wanted me to go through the break up with Bumtzz to become Spiritual Enlightened and Spiritual Awakened.

In Meditation I had a Vision that something was going to happen to my home in Battersea which was the flat I was living in. God was trying to prepare me for a Spiritual Journey. At the time I didn't understand vision because I was still going through Suffering – Pain – Adversities but it was very real and very truth.

After Meditations and Mindfulness, I started to become fearful and worried about the visions that I saw in my Meditations and started to tell my family that something is going to happen to me I can feel it and I cannot live in the flat in Battersea.

My Family knew I was going through a mental health breakdown and mental health crisis due to break up of my relationship with Bumtzz.

I was seeing Spiritual Signs and Synchronicity within my life and I felt like my life was slowly coming to an end and something destructive was going to happen to me.

One day, my Nan, who is a devoted Christian and prays every day for the family, sent for me because she had a message she wanted to share with me. When I saw my Nan, she said something that would later change my life which was, **“God is going to save your life.”**

The Destructive Event – Fire & Homelessness

In **30/09/2014** I was in my flat (Battersea) creating 2 Music Videos for my YouTube Channel for Reckyz Rose. I was very

vulnerable and mentally psychotic. I had no food, no drink, no electric, no gas, no money. I was burning candles in my flat to help me see my Music Videos and Video Editing and because I was deeply depressed and sad burning candles was something that gave me some light.

I was in my bedroom creating 2 Music Videos on my Laptop and I put Burning Candles near my Bedroom windows where the curtains were.

I wanted to go to the Kitchen to get a drink of water because I need a drink. As I was in the kitchen I look at my corridor and saw this Darkness that I never seen before coming towards me it looks like a force and spirit.

As I see this darkness coming towards me something inside of me said I need to get home of my flat now something is not right and I need to climb out of my kitchen window.

Once I was out of my flat, I went to my neighbour flat and asked if I can go to the balcony to check my living room and bedroom.

As I look through the Balcony, I can see my flat burning up the flames and a massive fire was destroying everything in my flat.

I was so shocked and wanted to stop the fire in my flat but there was nothing I can do.

I asked my neighbour to call the Fire Bridge and Ambulance.

On **30/09/2014** I officially **become**
homeless and lose my home and all of my
possessions in a fire.

This was a destructive event that destroy my
life and everything I had built in my life.

I was homeless, mentally psychotic,
emotional, vulnerable. As I saw my flat
burning up into flames and fire, I realise my
Nan was right and God saved my life.

This was a **near death experience** and I
could of die that day in the fire.

My Spiritual Intuition to climb out my
Kitchen Window saved my life and now I
am able to write this book.

**Homelessness & Fire was the ending of
The Self to No Self**

Because I went through so much Suffering – Pain – Adversities as I lost my home and all of my possessions it destroys my Ego and Self Esteem.

My life was saved but I had Nothing and Loss Everything

Homelessness and Fire was a life changing experience which destroy me but gave me Faith – Spirituality – Religion.

After I lost my home and all of my possession in a Fire, I realise that God has a Special life purpose for me and this was just the beginning of my life story.

Like I have said in this Spiritual Book & Spiritual Guide.

Homelessness and Fire was my Spiritual Awakening and Spiritual Change

How I Overcome Homelessness & Mental Health Crisis

When I **became homeless**, I started to sleep on the streets on **Marble Arch (Central London)** with other homeless people because I had no home, no food, no drink, no clothes, no money, no shelter.

As I was living homeless at Rock Bottom within my life, I realise that I need to Overcome Homelessness and Mental Health Crisis.

I was sectioned in Springfield Hospital for my Mental Health condition of Schizophrenia, Psychosis, Depression & Homelessness and I realise that if I don't change my situation and circumstances, I am

going to stay homeless and mentally psychotic.

I was going through Suffering – Pain – Adversities but because I developed my Faith – Spirituality – Religion I knew there was hope for me and I can create a better future.

I realise as I was sectioned in Springfield Hospital that I need to look for **Employments, Jobs, Work**. This was very important to me at this time because I need money and employment to get back the possession, I have loss and to get back into Housing and Properties.

Paul Dorrington (Lead Employment Specialist) & Dr Karen Meechan (Clinical Psychologist)

I first met Paul Dorrington (Lead Employment Specialist) in Springfield Hospital on Mental Health Ward when I was homeless and mentally psychotic. Paul Dorrington said that he could help me find Employment and Jobs. I was very happy about this and told Paul Dorrington my life story of homelessness and mental health crisis. Paul Dorrington said he will help me and support me within my mental health recovery journey to look for Employment & Jobs.

I started to work with Paul Dorrington when I got discharged from Springfield Hospital as they found a Hostels which I can live in as I was homelessness and mentally psychotic.

Paul Dorrington referred me to Dr Karen Meechan (Clinical Psychologist) for CBT Therapy & Counselling.

As I was working with Paul Dorrington & Dr Karen Meechan, I realise that I want to **help other people and give back** within my life. This was the most **Spiritually Choice and Decision I ever made in my life at that point.**

I said to Dr Karen Meechan and Paul Dorrington that I want to help other people and give back because **I didn't want anyone to go through Homelessness, Mental Health Difficulties, Suffering, Pain, Adversities I went through.** My Mission and Spiritual Life Purpose came alive and I found the reason to my homelessness and mental health crisis.

Paul Dorrington & Dr Karen Meechan was so helpful towards me and helped me and I was so inspired by Paul Dorrington & Dr Karen Meechan who gave me Hope, Faith, Spirituality, Kindness in my most vulnerable and difficult time.

Paul Dorrington started helping me to apply for Jobs & Employment within mental health industry because this is where I wanted to work due to having mental health conditions of schizophrenia, psychosis, depression.

Dr Karen Meechan helped me to understand myself and teach me how to Overcome Suffering – Pain – Adversities through Coping Strategies and Psychological Techniques and teaches me to start doing Journalling and writing my life experiences.

As I was working with Paul Dorrington & Dr Karen Meechan, I got my first ever role a **Co-Facilitator in Mind (Charity)** in a Hearing Voice Group support clients with mental health conditions due to the support and help from Paul Dorrington & Dr Karen Meechan on **25th Happy Birthday 09/11/2015**.

Also, my Flat that was burned down in the fire was refurbished and I moved back into my Flat and started to live independently.

Paul Dorrington & Dr Karen Meechan has taught me everything I know if Helping Other People, Mental Health, Psychology, Homelessness, Counselling, Self Help, Personal Development.

That is my Testimony and I am so grateful to Paul Dorrington & Dr Karen Meechan for helping me to Overcome Homelessness & Mental Health Crisis. I been helping other people and giving back for over 12 years within Mental Health Industry. I have built my mental health careers from homelessness & mental health crisis into 13 Paid Mental Health Roles, 4 Volunteering Mental Health Roles = 17 Mental Health Roles (Total)

Different type of Business

Structures/Ownership

A sole proprietorship, also known as a sole trader, is owned by one person and operates for their benefit. The owner operates the business alone and may hire employees. A sole proprietor has unlimited liability for all obligations incurred by the business, whether from operating costs or judgments against the business. All assets of the business belong to a sole proprietor, including, for example, a computer infrastructure, any inventory, manufacturing equipment, or retail fixtures, as well as any real property owned by the sole proprietor.

A partnership is a business owned by two or more people. In most forms of partnerships, each partner has unlimited liability for the debts incurred by the business. The three most prevalent types of for-profit partnerships are general partnerships, limited partnerships, and limited liability partnerships.

Corporations' owners have limited liability, and the business has a separate legal personality from its owners. Corporations can be either government-owned or privately owned, and they can organize either for profit or as non-profit organizations. A privately owned, for-profit corporation is owned by its shareholders, who elect a board of directors to direct the corporation and hire its managerial staff. A privately owned, for-profit corporation can be either privately held by a small group of individuals, or publicly held, with publicly traded shares listed on a stock exchange.

A cooperative or co-op is a limited-liability business that can organize as for-profit or not-for-profit. A cooperative differs from a corporation in that it has members, not shareholders, and they share decision-making authority. Cooperatives are typically classified as either consumer cooperatives or worker cooperatives. Cooperatives

are fundamental to the ideology of economic democracy.

Limited liability companies (LLC) and other specific types of business organization protect their owners or shareholders from business failure by doing business under a separate legal entity with certain legal protections. In contrast, a general partnership or persons working on their own are usually not as protected.

A franchise is a system in which entrepreneurs purchase the rights to open and run a business from a larger corporation.[10] Franchising in the United States is widespread and is a major economic powerhouse. One out of twelve retail businesses in the United States are franchised and 8 million people are employed in a franchised business.

Company limited by guarantee is commonly used where companies are formed for non-commercial

purposes, such as clubs or charities. The members guarantee the payment of certain (usually nominal) amounts if the company goes into insolvent liquidation, but otherwise, they have no economic rights in relation to the company. This type of company is common in England. A company limited by guarantee may be with or without having share capital.

A company limited by shares is the most common form of the company used for business ventures. Specifically, a limited company is a "company in which the liability of each shareholder is limited to the amount individually invested" with corporations being "the most common example of a limited company." [12] This type of company is common in England and many English-speaking countries. A company limited by shares may be a

- publicly traded company or a - privately held company.

Chapter 15 - Thank You

I would like to say thank you to Paul Dorrington (Lead Employment Specialist), Karen Meechan (Clinical Psychology), Dag Heard Mills (Pastor, Evangelist, Teacher), Jiddu Krishnamurti (Philosopher, Spiritual Teacher), Jesus Christ – Jehovah - Buddha for helping to write this amazing book and for helping me to overcome my adversity & suffering.

Paul Dorrington (Lead Employment Specialist) – Paul Dorrington helped and supported me when I was 24 – 25 years from homelessness and mental health crisis to get back into Paid Employment in the Mental Health Industry. Paul Dorrington is my Spiritual Hero and I value and respect all of the support and help Paul Dorrington has

given me through my years. Christopher Liam Rose & Paul Dorrington's professional relationship has been for 10 years since 2014 – Present. Christopher Liam Rose owes his whole life to Paul Dorrington for showing him mental health recovery and hope, faith, control, and opportunity. Christopher Liam Rose has now worked with Paul Dorrington as an Employment Specialist in SWLSTG at North Kingston Team but will slowly be moving on to a Peer Support Coordinator role at SWLSTG (Sutton Jubilee Health Centre). Christopher Liam Rose's dream was to work with Paul Dorrington in mental health recovery and IPS Employment Specialist Support. Since Christopher Liam Rose has worked with Paul Dorrington in SWLSTG as an

Employment Specialist he has received 2 Awards for excellent IPS Employment Specialist work.

Karen Meechan (Clinical Psychologist) –

Karen Meechan helped and supported Christopher Liam Rose in 2014 in Psychology and Counselling Therapy when Christopher Liam Rose went through homelessness and a mental health crisis. Karen Meechan is the main reason why Christopher Liam Rose has developed persistence, resilience, and coping strategies to manage his mental health conditions and learning difficulties of Schizophrenia, Psychosis, Depression, Diabetes, and Dyslexia. Karen is my Spiritual Hero and has helped me to recover from my mental health conditions and learning difficulties.

Karen taught Christopher Liam Rose about dealing with Past Trauma, setbacks, overcoming adversity, and life challenges. Karen was the first person that Christopher Liam Rose opened up about his past and trauma. On 30/09/2024 Christopher Liam Rose lost his home and all of his possessions in a fire that burned away everything that Christopher Liam Rose owned including possessions and music equipment. Karen helped Christopher Liam Rose deal with the fire and past trauma he experienced and showed him the light in helping other people and giving back. Karen told Christopher Liam Rose to write in journals to process his life, feelings, emotions, dreams, and desires. Christopher Liam Rose has been writing in journals since 2015 – Present and how many

journals of his past life and experiences within the journals. Christopher Liam Rose & Karen Meechan's professional relationship was from 2014 – 2020 when Karen Meechan supported Christopher Liam Rose in Psychological Therapy 2 times 1) Psychology & Counselling in 2014 2) Psychology & Counselling in 2018. Christopher Liam Rose has experienced serious life setbacks and challenges which Karen Meechan helped me to deal with. Because of Karen Meechan, I can live a normal life and I have recovered from mental health illness.

Dag Heward Mills (Teacher, Pastor,

Evangelist) – Dag Heward Mills has been my spiritual Christian father and leader in my Christianity & Spirituality. I have been

attending Dag Heward Mills church called Lighthouse Chapel International #LCI 2014 – present. Christopher Liam Rose respects and honours Dag Heward Mills for all of his teachings, sermons, videos, and audio that he has been learning from since 2014. Dag Heward Mills is one of the main reasons why Christopher Liam Rose has stayed in faith, Christianity, and Spirituality. I have become an Evangelist and Teacher in Christianity and Faith based on Dag Heward Mill's Teachings. I owe my Christian Walk with God to Dag Heward Mills and I am very grateful to be a part of Dag Heward Mills church and congregation.

Jiddu Krishnamurti (Spiritual Teacher, Philosopher) – Jiddu Krishnamurti is a very special spiritual teacher and philosopher that

helped me with Spirituality and faith. I discovered Jiddu Krishnamurti's Videos Series – A Wholly Different Way of Living with Dr Allan San Diego 1974 on YouTube when I was going through a mental health crisis and breaking up with my ex-partner. Because I watched Jiddu Krishnamurti videos talking about Spirituality, Meditation, Mindfulness, God, Faith, and Religion I started to become a Spiritual person and was practicing meditation and mindfulness. Jiddu Krishnamurti is the main reason why I have changed all of my life spiritually and become a very spiritual person. Jiddu Krishnamurti helped me to find Spirituality and God and I would have not been able to achieve Spiritually Freedom from the known without Jiddu Krishnamurti's teachings. I

have a spiritual aura and spiritual presence
because of the teachings of Jiddu
Krishnamurti who is my spiritual teacher
and spiritual philosopher.

Jesus Christ – Jehovah - Buddha – This
has become the most important thing in my
life to learn and understand Jesus Christ –
Jehovah - Buddha. My faith, Spirituality,
and Christianity & Buddhism are very
important to me, and being with Jesus Christ
– Jehovah - Buddha makes me Spiritual.
Being a Christian and learning about Faith,
Spirituality, Buddhism Christianity has
become everything to me and more. My love
and devotion for Jesus Christ – Jehovah -
Buddha is everything and that is why I can
be an Evangelist, Activist, Teacher in Faith,
Spirituality, Buddhism, Christianity.

My spiritual heroes are very important to me in my life story and journey, and they are all the reasons why I have become a spiritual person.

I want you to understand dear readers that you can become spiritual and live a meaningful productive life. My life has been very difficult and challenging but I would change any of my life experiences because they made me who I am today. The only things I would change about my life are the things I did to hurt other people like --ex-partners, family, and childhood abuse.

My life is not perfect by any means, but I have learned very important life lessons that I want to share in my life story. Please remember readers I am only a human being, and I am not perfect but I want you to feel

inspired and hopeful about your future, and
by reading my books you will find faith,
Spirituality, Buddhism, Christianity and
become the person you want to be.
